Allowable Subject Matter

Claims 21-38, 48, 49, 51 and 61-63 allowed.

The following is an examiner's statement of reasons for allowance: in addition to previously cited reasons, the prior art does not show nor fairly suggest the contact area of a driver or driven element having a contact area in which there are areas having different values of friction. Tobe notes use of areas of different friction values at col. 4, lines 54-59, however an examination indicates that the contact area itself is not comprised of such.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Direct inquiry to Examiner Dougherty at (571) 272-2022.
